- ✓ Double Glazing
- ✓ Heating
- ✓ lift
- ✓ Solarium

Grand 5-bedroom, 6-bathroom townhouse, with lift, is found nestled within the historic old town district of Javea. Just a short 5min drive to the beach. This property has been completely reformed in 2018, the townhouse has the potential to be presented to the town hall as a project to be ran as a boutique hotel or B&B. Distributed over three levels. We enter on the ground floor and are greeted by an entrance hall, WC, living room and kitchen, an interior courtyard with a roof that opens. The first floor has two rooms both with ensuite and one with a terrace & private jacuzzi. On the second floor, we have two more rooms, both with ensuite. Finally, on the third floor, we have a loft bedroom with ensuite and has access to two terraces. This property also benefits from double glazed tilt & turn windows throughout, a lift and ample storage space. The townhouse is within the heart of the popular seaside town of Javea, with all its bars, restaurants, shops and amenities. The townhouse has quite an eclectic feel, during the reform, they have respected the properties facade and Tosca arches inside while giving the property a modern twist.
