Pure Design is a contemporary style villa, with a pure and elegant design, with a distribution oriented to let the sea and the light of the Mediterranean invade the interior of the house, with open areas during the day where the kitchen joins the living room, creating an adjacent environment bounded by a central island, an incredible area to enjoy breakfast or a quick meal without losing sight of the sea. The dining room joins the porch and the pool terrace, creating a unique space, since the sliding glass door that separates them is collected on one side, connecting the interior with the exterior. This villa has three bedrooms and two bathrooms. The main bedroom is very bright, with an en-suite bathroom, dressing room and direct access to the main terrace of the house, where the infinity pool is located. Some pure design villas have a basement, allowing the house to be extended to four bedrooms or to create a leisure, sports or whatever use the owners desire. They all include the garden and a covered parking area. A modern and elegant project built to the highest design standards, offering a unique opportunity to live in the Cumbre del Sol residential complex. Do not hesitate to contact our sales team to receive more information about...
