- ✓ fenced plot
- ✓ Garden
- ✓ heating under Floor Heating
- ✓ Laundry
- ✓ near the beach
- ✓ near the town center

Luxury villa in Benissa. This fantastic house is located in a very quiet urbanisation very close to La Fustera beach, on the coast of Benissa. The plot is semi flat with sea views. Its gardens, with Mediterranean character, offer privacy and enhance the architecture of the house. The project is conceived as a refuge for its owners, a place where to abstract and stimulate the senses. Every element, every detail, breathes the same philosophy. The house is shown in its natural state through the use of wood and stone. Different volumes have been fragmented, linked by the hall and different heights have been created depending on the room. The house expands outwards, forming a large terrace and merging with the swimming pool. Such a unique project could not miss a large chill out area with a garden to enjoy the long hours of the day and night with its views of the Mediterranean Sea, as well as a Spa area with a swimming pool/jacuzzi with a waterfall, gym, sauna and Turkish bath. All this to be able to enjoy this magnificent property with the whole family without missing any detail. Energy efficiency in a home these days is very important so we use the best products on the market to achieve the highest possible...
