- ✓ Views of pool

Front-line apartment (with lift) with three bedrooms, a bathroom, communal swimming pool, and two large terraces with amazing views of the Mediterranean sea and the Ifach in Calpe. Upon entering the property, a hallway brings us into a bright living/dining room with doors to the two large terraces with open sea views and enough space to accommodate tables and chairs to get the most out of the summer times. There is a separate and fully fitted kitchen that also has access to one of the terraces. Leading off the living room, there are three good size bedrooms, one with a door to the terrace, and a family bathroom with a bathtub. The property also benefits from a secured parking space and is just on the popular Vora Mar complex which made this a perfect holiday home or a great rental investment. Calpe is a vibrant town on the Mediterranean shore that combines the traditional Spanish lifestyle with a cosmopolitan feeling. Famous for its Peñon de Ifach rock and its sandy beaches, Calpe offers a large range of services and activities. It's also well-communicated with both Valencia and Alicante airports.
