- ✓ Underbuild

Beautiful villa with four bedrooms and three bathrooms in the well-known Valle del Paraiso Urbanisation in the picturesque village of Jalon, close to all services and just a short drive away from the sandy beaches of Moraira and Calpe. From the street level, we access the property in a bright living room with amazing views of the mountains. Here there is an open-plan kitchen refurbished with modern lines and equipped with all necessary appliances. An American bar separates the kitchen from the dining area, which also has wonderful views and access to the terrace. Leading off the living room there are three bedrooms, all with fitted wardrobes, and a family bathroom with a shower. The master bedroom has an air-conditioning unit and is also an ensuite. The property also has an underbuild with the same footprint as the main accommodation. This consists of a large living space with two beds, a space designated as a kitchenette, a spacious bathroom with a walk-in shower and double sink, and a large storage room/workshop. Outside there is a very nice and easy-to-maintain garden with mature trees and beautiful flowers. The property also has a swimming pool next to a covered seating area, perfect to enjoy summertime but also the winter sun. The property is in an immaculate state.
