These are very special boutique villas that will be built within an Eco-Village, in the hill tops of Lliver. Here you can experience a lifestyle, full of services that promote healthy living. The villas are designed for those who value a pollution-free environment and a community centered lifestyle. Within the community here you and your family members and friends can enjoy the private hikes, cycling tracks, wine club, spa, picnic area, yoga decks and outdoor gymnasium. The community areas are pet friendly. The villas feature spacious terraces, private pools and gardens that combine indoor and outdoor living. Residents can enjoy panoramic views of the vineyards and the Sierra del Castillo de la Solana mountain range. Choose between two villa models, each with three bedrooms, three bathrooms and customised layouts. Enjoy the modern interior design with natural tones, warm colours and wooden elements evoking Mediterranean tradition. These homes are perfect for those seeking an environmentally friendly lifestyle without sacrificing modern comforts. With facilities for work and leisure within walking distance, the villas are ideal for families and professionals who prioritise sustainability, health and wellbeing. Contact Home España for more information and embrace a new sense of well-being in harmony with nature. Just a 20 minute drive
