Plot: 2031m²

2 building plots in El Rafalet. Both plots are in quiet cul-de-sacs and are adjacent, so could be developed as a very large single plot. Plot 114 (1074 m²) has green zones to the front and side and plot 118 (957 m²) has green zones to the rear and side with superb open views across the valley to the Montgo. Electric and water services are provided to the plots ready to connect onto and all telephone and electric cabling are in underground ducts. All roads, pavements and street lighting are provided as part of the urbanisation of the development situated very close to Javea Golf Club. The sale price of each plot is €160,000 or €299,950 if both are purchased.
